

# ClickLearn Painkillers

ClickLearn is the market leading authoring solution. The unique recording technology delivers a superior learning experience for the end-user and kills major pains for IT and Management.

## AUTO-PRODUCE DOCUMENTATION

Turbo charge the speed at which you document your vital business processes.

ClickLearn auto-produces 7 different formats of professional learning material, including narrated videos, PDFs and a live assistant inside the business system.

Save at least 80% on time spent creating learning materials.

## RAPID USER ADOPTION

The formats of produced learning material covers any training need, both individual preferences and proficiency. The interactive video formats function as a safe, engaging and intuitive learning environment. The live assistant delivers instant and quick on-screen guidance.

All produced learning material is available in the cloud (or hosted locally) and can be consumed from any device in any language at any time.

## ON-BOARDING MADE EASY

ClickLearn automatically publishes all produced materials as an engaging and well-structured e-learning portal.

ClickLearn enables authors to create and maintain uniform and consistent training courses, across business systems, in any language.

Mobility of workforce or localities is no longer a problem during training. Increase your knowledge adoption to new employees and reduce helpdesk calls by up to 70%.
